

FOUTRE

TO F* DO

FOUTRE is very *slangish*, I would even say it can be really offensive, yet, it's very commonly used in French. Watch this 1956 [song by Piaf](#) where she uses *foutre*. So, you really hear it quite often in everyday French. When it's used as below, it is not too offensive, it just means the speaker is irritated. See all the uses of [FOUTRE](#).
